

BACK TO SCHOOL WRITE THE ROOM

COUNTING

DIFFERENTIATED kindergarten

Back to School Back to School Counting Fun

Directions: The teacher will place 10 items in a room or take all items to the play area. Students will find the items in the room, count them, and write the number on the response sheet. The teacher will then check the students' answers and give them a sticker for each correct answer.

Example: If you find 5 items, you will write the number 5 in the space provided. If you find 10 items, you will write the number 10 in the space provided. If you find 15 items, you will write the number 15 in the space provided. If you find 20 items, you will write the number 20 in the space provided.

Before you start counting, you should first count the items in the room. If you find 5 items, you will write the number 5 in the space provided. If you find 10 items, you will write the number 10 in the space provided. If you find 15 items, you will write the number 15 in the space provided. If you find 20 items, you will write the number 20 in the space provided.
