I SEA TINY Little Sight Words Freebie

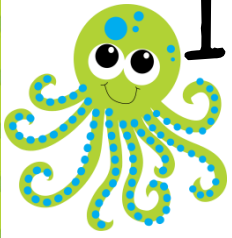

This activity meets Common Core Standards:
CC.K.RF.3.c Read common high-frequency words by sight.
CC.L.RF.3.g Recognize and read grade-appropriate irregularly spelled words.

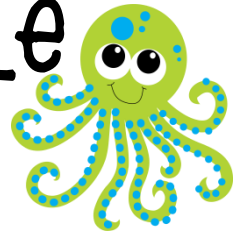

It is a fun sight word sample which is part of my larger unit which includes 11 levels of Dolch words so that you can meet your students right at their readiness level. Students use magnifying glasses to find the hidden sight words in each picture. When they have found 20 unduplicated words, they read them to a friend or their teacher. As your students' word recognition, so can you adjust the level of sight words they search for in each picture. Check out my TpT Store for the unit.
