Small Playing Cards

Memory Match: These small playing cards are used for playing memory. Like to do this in either a small pocket chart like the kind from Target, but you can really do it anywhere you have a flat space. It is like traditional memory with students matching the word with the correct corresponding picture.

Starting: These are also the cards you will use for sorting word.

write The Room

Laminate, cut apart, and mount the write room cards below with masking tape around room. Based on your students readiness select a recording sheet for them to use. You may either laminate these (my preferred method) or print them off to use with a word wall. Hand your student a clipboard have them search the room for the word pictures. For students who have NOT progressed towards mastering their left sounds quite yet, I have them write the word from the word wall for practice (see "word wall" response sheet).
