**Spin A Peep**

For this game, adults will need to cut out the peep cards and place them into a bag. For each student, they will need a spinner and a number line. The spinner should be made from a circle divided into four equal parts. The number line should be made from a strip of paper with a grid of numbers from 0 to 10. The spinner should be placed on the grid and the number line should be placed on the grid. The spinner should be spun and the number line should be used to count the number of peeps that are spun.
